RESTRICTIVE PHYSICAL INTERVENSION POLICY

Policy Number: 46 Review Committee: Standards Type of Policy: Non-Statutory Review Period: Every 2 years Approved: June 2023 Next Review: June 2025

Registered office:

C/o Larwood School, Larwood Drive Stevenage, Hertfordshire. SG1 5BZ, UK. Company Number: 10359418

Telephone: 01438 236333 Email: admin@larwood.herts.sch.uk

CONTEXT

Hertfordshire schools and educational establishments are encouraged to use this framework and to adapt it totheir own setting. It is advised that all schools should be familiar with the Hertfordshire Policy on the use of Restrictive Physical Intervention.

This policy is written for schools or settings which have adopted Hertfordshire Steps which is the local authority's preferred approach to supporting positive behaviour management in schools and settings. Schoolsand settings should ensure if they have commissioned training packages other than Steps that this policy is amended to ensure it is consistent with the principles and ethos of those packages. The Steps approach forms part of the authority's behaviour strategy. It has been agreed through the SEND Executive and forms part of Hertfordshire's Local Offer.

HERTFORDSHIRE STEPS TRAINING

Hertfordshire Steps training covers two distinct developmental areas:

"Step On" - (De-escalation training)

It is considered best practice that all teachers, TA's and MSA's complete this de-escalation training. 'Step On' is a therapeutic approach to behaviour management, with an emphasis on consistency, on teaching internal discipline rather than imposing external discipline and on care and control, not punishment. It uses techniques to de-escalate a situation before a crisis occurs and, where a crisis does occur, it adopts techniques to reduce the risk of harm.

"Step Up" – (Restrictive physical intervention training)

Provides training on elements of restrictive physical intervention (restraint) and personal safety. This training can only be provided within services where staff have already completed 'Step On' training and are still withincertification. 'Step Up' training is only delivered where there is an audited need with an individual young person who displays dangerous behaviour.

This policy is recommended to be referenced within the school's Behaviour Policy; it will be part of a gradedresponse, and needs to be agreed in consultation with staff, governor's parents/carers, and pupils. The behaviour policy should aim at improving educational outcomes for all pupils by promoting and supporting their engagement with education. It also connects to, and should be consistent with, policies on Health and Safety, Child Protection and Safeguarding, Equal Opportunities, and Pastoral Care.

INTRODUCTION

At Larwood School we believe that pupils need to be safe, to know how to behave, and to know that the adultsaround them are able to manage them safely and confidently. Only for a very small minority of pupils will the use of restrictive physical intervention be needed. On such occasions, only acceptable forms of intervention are used.

The majority of pupils behave well and conform to the expectations of our school. We have responsibility tooperate an effective behaviour policy that encompasses preventative strategies for managing difficult and dangerous behaviour in relation to the whole school, each class, and individual pupils.

All school staff need to feel that they are able to manage behaviour, and to have an understanding of what difficult or dangerous behaviours might be communicating. They need to know what options are available for managing behaviour, and they need to be free of undue worries about the risks of legal action against them if they use appropriate physical intervention. Parents need to know that their children are safe with us, and theyneed to be properly informed if their child is the subject of a Restrictive Physical Intervention, including the nature of the intervention, and the rationale for its use.

ACCEPTABLE FORMS OF PHYSICAL INTERVENTION IN LARWOOD SCHOOL

"Physical intervention" (PI) is the term used to describe contact between staff and pupils where no force is involved. There are occasions when it is entirely appropriate and proper for staff to have contact or physical intervention (PI) with children, however, it is crucial that they only do so in ways appropriate to their professional role and in relation to the pupil's individual needs. There are occasions when staff may have cause to have physical intervention (PI) with pupils:

To comfort a pupil in distress (so long as this is appropriate to their age)

- To gently direct a pupil
- For curricular reasons (for example in PE, Drama, etc.)
- First aid and medical treatment
- In an emergency to avert danger to the pupil or pupils
- In rare circumstances when Restrictive Physical Intervention is warranted (See Below)

Not all children feel comfortable about certain types of physical contact; this should be recognised and, wherever possible, adults should seek the pupil's permission before initiating contact and be sensitive to anysigns that they may be uncomfortable or embarrassed. Staff should acknowledge that some pupils are more comfortable with touch than others and/or may be more comfortable with touch from some adults than others. Staff should listen, observe and take note of the child's reaction or feelings and so far as is possible, usea level of contact and/or form of communication which is acceptable to the pupil.

It is not possible to be specific about the appropriateness of each physical contact, since an action that is appropriate with one pupil, in one set of circumstances, may be inappropriate in another, or with a differentchild. In all situations where physical contact between staff and pupils takes place, staff must consider the following:

- The pupil's age and level of understanding
- The pupil's individual characteristics and history
- The duration of contact
- The location where the contact takes place (it should not take place in private without others present)

Physical contact must never be used as a punishment, or to inflict pain. All forms of corporal punishment are prohibited. Physical contact shall not be made with the pupil's neck, breasts, abdomen, genital area, or any other sensitive body areas, or to put pressure on joints. It must not become a habit between a member of staff and a particular pupil. Physical intervention should be in the pupil's best interest and should only be used with an awareness of the need to differentiate the attachment to staff from the attachment to key adults such as parents and siblings.

SAFER WORKING PRACTICE

To reduce the risk of allegations, all staff should be aware of safer working practice and should be familiar withthe guidance contained in the staff handbook/ school code of conduct / staff behaviour policy and Safer Recruitment Consortium Document Guidance for safer working practice for those working with children and young people in education settings (April 2020) and keeping children safe in education 2021

<u>Professional and Personnel Relationships (safeguardingchildren.co.uk) Keeping children safe in education - GOV.UK (www.gov.uk)</u>

DEFINITION OF "RESTRICTIVE PHYSICAL INTERVENTION"

"Restrictive Physical Intervention" (RPI) is the term used to describe interventions where the use of force to control a person's behaviour is employed using bodily contact. It refers to any instance in which a teacher or other adult authorised by the Headteacher has a duty to use "reasonable force" to control or restrain pupils in circumstances that meet the following legally defined criteria.

- To prevent a pupil from committing a criminal offence (this applies even if they are below the age of criminal responsibility)
- To prevent a pupil from injuring self or others
- To prevent or stop a pupil from causing serious damage to property (including their own property)

There is no legal definition of "reasonable force". However, there are two relevant considerations:

- The use of force can be regarded as reasonable only if the circumstances of an incident warrant it
- The degree of force must be in proportion to the circumstances of the incident and the seriousness of the behaviour or consequences it is intended to prevent

The definition of Restrictive Physical Intervention also includes the use of mechanical devices (e.g. splints on the pupil prescribed by medical colleagues to prevent self-injury), forcible seclusion, use of locked doors or changes to a pupil's environment. It is important for staff to note that, although no physical contact may be made in the latter situations, this is still regarded as a Restrictive Physical Intervention.

Legal defense for the use of force is based on evidence that the action taken was:

- Reasonable, proportionate, and necessary
- In the best interest of the young person

This document takes into account DfE Guidance on Use of Reasonable Force July 2013 https://www.gov.uk/government/publications/use-of-reasonable-force-in-schools

WHEN THE USE OF RESTRICTIVE PHYSICAL INTERVENTIONS MAY BE APPROPRIATE IN LARWOOD SCHOOL

Restrictive Physical Interventions may be used when all other strategies have failed, and therefore only as a last resort. All staff should focus on de-escalation and preventative strategies rather than focusing solely on reactive strategies. However, there are other situations when restrictive physical intervention may be necessary, for example in a situation of clear danger or extreme urgency. Certain pupils may become distressed, agitated, and out of control, and need calming with a brief Restrictive Physical Intervention that is un-resisted after a short period-there must be clear indicators of hurt to themselves or others. Severe damageto property or anything that is unlawful.

The safety and well-being of all staff and pupils are important considerations. Under certain conditions this duty must be an over-riding factor.

WHO MAY USE RESTRICTIVE PHYSICAL INTERVENTION IN LARWOOD SCHOOL

Staff that are Steps trained are authorised by the Headteacher to have control of pupils and must be aware ofthis policy and its implications. However, non-inclusion on this list does not mean that an adult is necessarily barred from using physical intervention. If the Head has lawfully placed an adult in charge of pupils, then thatadult will be entitled to use Restrictive Physical Intervention

We take the view that staff should not be expected to put themselves in danger and that removing other pupils and themselves from risky situations may be the right thing to do. We value staff efforts to rectify whatcan be very difficult situations and in which they exercise their duty of care for the pupils.

PLANNING FOR THE USE OF RESTRICTIVE PHYSICAL INTERVENTIONS IN LARWOOD SCHOOL

Staff will use the minimum force needed to restore safety and appropriate behaviour. When considering theuse of Restrictive Physical Intervention there are only 3 components that can be judged as wrong.

• If there is a negative impact on the process of breathing

- The pupil feels pain as a direct result of the technique
- The pupil feels a sense of violation

_

ELEVATED RISKS

The following can result in a sense of violation, pain, or restricted breathing:

- The use of clothing or belts to restrict movement
- Holding a person lying on their chest or back
- Pushing on the neck, chest, or abdomen
- Hyper flexion or basket type holds
- Extending or flexing of joints (pulling and dragging)

The following can result in significant injury:

- Forcing a pupil up or down stairs
- Dragging a pupil from a confined space
- Lifting and carrying
- Seclusion, where a person is forced to spend time alone against their will (requires a court order except in an emergency)

The principles relating to Restrictive Physical intervention are as follows:

- Restrictive Physical Intervention is an act of care and control, not punishment. It is never used to force compliance with staff instructions
- Restrictive Physical Intervention will only be used in circumstances when one or more of the legal criteria for its use are met
- Staff will only use force when there are good grounds for believing that immediate action is necessary and that it is in the pupil's and/or other pupils' best interests for staff to intervene physically.
- Staff will take steps in advance to avoid the need for Restrictive Physical Intervention through dialogue and diversion. The pupil will be warned, at their level of understanding, that Restrictive Physical Intervention will be used unless they cease the dangerous behaviour
- Staff will use the minimum force necessary to ensure safe outcomes
- Staff will be able to show that the intervention used was a reasonable response to the incident
- Every effort will be made to secure the presence of other staff, and these staff may act as assistants and/or witnesses
- As soon as it is safe, the Restrictive Physical Intervention will be relaxed to allow the pupil to regain self-control
- A distinction will be maintained between the use of a one-off intervention which is appropriate to a particular circumstance, and the using of it repeatedly as a regular feature of school policy
- Escalation will be avoided at all costs, especially if it would make the overall situation more destructive and unmanageable
- The age, understanding, and competence of the individual pupil will always be taken into account
- In developing a risk reduction plan, consideration will be given to approaches appropriate to each pupil's circumstance
- Procedures are in place, through the pastoral system of the school, for supporting and debriefing pupils and staff after every incident of Restrictive Physical Intervention, as it is essential to safeguard the emotional well-being of all involved at these times.

DEVELOPING A RISK REDUCTION PLAN IN LARWOOD SCHOOL

All pupils involved in a physical restrictive intervention will immediately go onto a risk assessment plan. If other pupils are identified for whom it is felt that Restrictive Physical Intervention may be a likely result, then aRisk Reduction Plan will be completed. This Plan will help the pupil and staff to avoid difficult situations through understanding the factors that influence the behaviour and identifying the early warning signs that indicate foreseeable behaviours that may be developing. The Steps toolkit for completing roots and fruits, anxiety mapping

and risk assessments is available on the server under the staff folder. The plan will include:

- Involving parents/carers and pupils to ensure they are clear about what specific action the school may take, when and why
- A risk assessment to ensure staff and others act reasonably, consider the risks, and learn from what happens
- A record to be kept in school of risk reduction options that have been examined and discounted, as well as those used (Annex Roots and fruits)
- Techniques for managing the pupil's behaviour i.e., strategies to de-escalate a conflict, and stating at which point a Restrictive Physical Intervention may be used
- Identifying key staff who know exactly what is expected. It is best that these staff are well known to the pupil
- Ensuring a system to summon additional support
- Identifying training needs

Please refer to the Appendix for a risk reduction plan

GUIDANCE AND TRAINING FOR STAFF

Guidance and training are essential in this area. We need to adopt the best possible practice in LarwoodSchool and recognise that it is essential that it is arranged for all staff at a number of levels including:

- Awareness of issues for governors, staff and parents,
- Behaviour management techniques for all staff
- Managing conflict in challenging situations all staff

RECORDING AND REPORTING

The use of a Restrictive Physical Intervention, whether planned or unplanned (emergency) must always be recorded as quickly as practicable on the same day of the incident by the person(s) involved in the incident, in our RPI book (located in the Headteacher's office). The written record should indicate:

- The names of the staff and pupils involved
- The reason for using a Restrictive Physical Intervention (rather than another strategy)
- The type of Restrictive Physical Intervention employed
- How the incident began and progressed, including details of the pupil's behaviour, what was said by each of the parties, the steps taken to defuse or calm the situation, the degree of force used, how that was applied, and for how long
- The date and the duration of the intervention
- Whether the pupil or anyone else experienced injury or distress and, if they did, what action was taken

Training in practical techniques of Restrictive Physical Intervention may be required for staff where there is a significant likelihood of them needing to intervene physically due to the nature of the pupil (or pupils) that they are working with. Where there is an identified need for such training, staff will be trained by an accredited Hertfordshire Steps trainer. We have 4 Steps trainers at Larwood: Sean T, P van der Merwe, Ian Rand and Marcus M.

(NB there is no legal requirement for staff to be trained in the use of practical techniques so staff may exercise their legal right to physically intervene even if they have not had such training. However, they would still need to demonstrate that their intervention was reasonable and proportionate).

COMPLAINTS

It is intended that by adopting this policy and keeping parents and governors informed we can avoid or minimise the likelihood of any complaints being made. All disputes which arise about the use of force by amember of staff will be dealt with according to Child Protection and Safeguarding policies.
